

MEMBER'S TESTIMONIALS

TRANSVAAL GALVANIZERS (PTY) LTD AND IMAB ENGINEERING (PTY) LTD

"We decided to join SAEFA, aligning with their grounded and realistic approach to collective bargaining that balances the needs of the industry, employers, and labour".

As a company with over 35 years of experience in providing anti-corrosion protection and galvanising services, Transvaal Galvanisers can confidently say that joining SAEFA has been a game-changer for our business. Our sister company, IMAB Power, with over 50 years of expertise in manufacturing structural steel components for electrical transmission lines, substations, and telecommunication masts, shares this sentiment.

We were initially motivated to join SAEFA due to its alignment with our company's ideologies and its commitment to advocating for fair working conditions. Since becoming members, our experience has been exceptional. SAEFA's support has enabled us to continue operating within legal and fair parameters, ensuring compliance and fair wage rates for new entrants.

We have greatly benefited from SAEFA's services, including industry wage negotiations, labour law advice, chairing internal disciplinary enquiries, and representation at the Metal and Engineering Industry's Bargaining Council and CCMA. Additionally, their training programs have been beneficial. Membership in SAEFA has facilitated industrial harmony, allowing our companies to expand and thrive.
